

PRODUCT INSTRUCTIONS

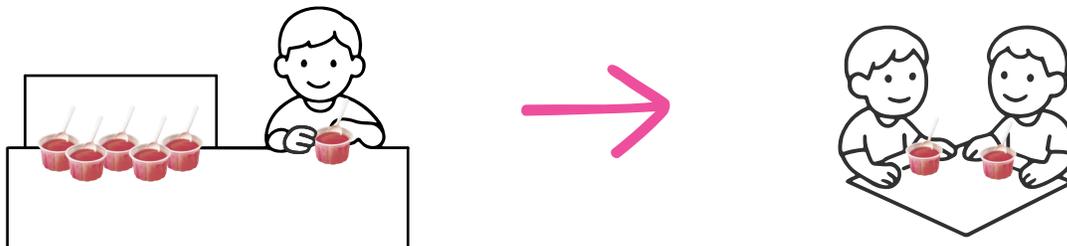

1. SideKicks are shipped and stored frozen at 0° or below.

2. Just prior to serving, remove SideKicks from the freezer and place on serving line away from heat sources. Treat SideKicks like ice cream when serving.

3. After 5-10 minutes, SideKicks should still look frosty and are easily spoonable, meaning even young kids can finish them in a short mealtime.

4. To assure the best product quality, refreezing is not recommended.
